### How A Teleconference Works

A teleconference is like a large conference call, but in a more controlled, radio-program-like environment. Simply dial the 800 number and you're connected! We will provide you with an Internet link so you can follow the speakers' presentations and other written materials throughout the call. A question-and-answer session will open after all speaker presentations are complete.

### Educate Your Whole Staff For Just \$125

The teleconference registration fee is \$125 per phone line. There is no limit to the number of people who may participate in the call from a single location - so gather your entire staff around your conference table's speaker phone and let everyone benefit from the expert insights shared.

And best of all, you won't experience any extra time out of the office or travel hassles and expenses!

Dialing instructions for the program and the URL for accessing your conference materials will be e-mailed to you within 48 hours of the teleconference. (You will need Acrobat Reader, available for free at [www.adobe.com](http://www.adobe.com).)

International calls are welcome and easily accommodated. And you can register right up until the teleconference begins.
